

PROJECTS 1-4

Our first four projects are all about reconnecting the Market with the City in physical, social and economic terms. Some initiatives, such as the Tunnels beneath East Bridge Street are already underway. Others will require those taking forward large developments on the edge of the Market to work with us to ensure the best possible links. Finally, Cromac Street, once the life and soul of the Market needs revitalised as exciting part of the city.

1. CONNECT NORTH

A. THE TUNNELS: Transformation of archways under East Bridge Street into community and business uses

B. STEWART ST DEVELOPMENT: Sensitive mixed use development of vacant land creating a positive interface with the Market area

C. NORTHWARD FOOT & CYCLE LINKS: Improved connections to and across East Bridge Street

D. EAST BRIDGE STREET LANDSCAPE AND PUBLIC ART: Creating a vibrant, positive environment along the Market's northern edge and at St Georges Market

2. CONNECT EAST

A. ORMEAU PARK BRIDGE: New foot and cycle bridge across the River Lagan to Ormeau Park

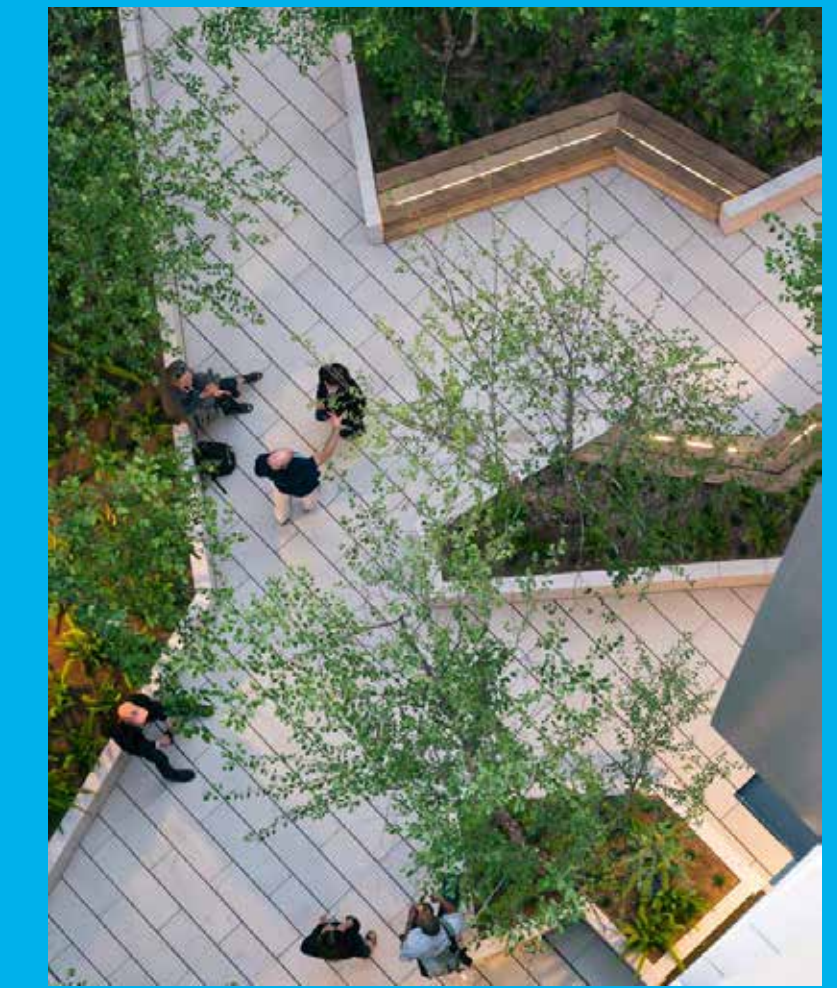

B. FORMER NIE SITE: Redevelopment of former Northern Ireland Electricity site into housing

C. RIVER LINKAGES: Creation of more visual and future pedestrian connections between the Market and the River Lagan

3. CONNECT SOUTH

A. INTERIM BOUNDARY IMPROVEMENTS: Short term improvements to the boundary between the Market and Gasworks area

B. SOUTHWARD FOOT & CYCLE LINKS: Strong new connections south from Cromac Place and McAuley Street.

C. INTEGRATED NORTH FRINGE DEVELOPMENT: Mixed use development of vacant land to include integrated housing and well designed streets and spaces

4. CONNECT WEST

A. CROMAC STREET PUBLIC REALM: Comprehensive project to redesign Cromac Street, including a new Cromac Square, links to St Malachy's Church, new mixed use development, public art and lighting

POTENTIAL OF CROMAC ST AND SQUARE

What are your priorities for the regeneration of the Market?

How could these projects be improved upon?
